

Now, more than ever before, it is crucial that Congress support programs that seek to address growing health care crises in rural America. Relief to address the unique needs of rural America is needed through the FY2025 appropriations bills. Rural health discretionary spending is a relatively small amount but is vitally important for maintaining access to care for individuals living in rural America. In addition to core rural health programs, NRHA urges Congress to support the following priority requests to significantly improve rural health care access and affordability.

- **Devote resources towards Rural Hospital Cybersecurity.** The Small Hospital Improvement Program (SHIP), within the Medicare Rural Hospital Flexibility Grant Program, is used to assist rural hospitals with purchase of HIT and equipment, among other activities. In FY25, NRHA calls for an increase in funding to support small rural hospital readiness against cyber security attacks. Rural health care organizations are in urgent need of increased cybersecurity measures to address the growing threats and vulnerabilities present with the increase of digital patient records. As such, Congress should provide an increase of \$38 million to go towards SHIP Program funding specifically for cybersecurity preparation. Total funding request for the **Flex line for FY25 is 102 million.**
- **Rural Hospital Stabilization Pilot Program.** Since 2010, nearly 180 rural hospitals have closed or discontinued inpatient services. Currently, half of rural hospitals are operating in the red. To help keep rural hospital doors open, NRHA urges Congress to fund the **Rural Hospital Stabilization Pilot Program at \$15 million for FY25.** The purpose of the program is to improve health care in rural areas by providing in-depth technical assistance (TA) to rural hospitals to enhance and/or expand service lines to meet local needs and keep health care services available locally.
- **Support for the Centers for Disease Control and Prevention (CDC) Office of Rural Public Health (ORH).** Given the devastating outcomes of COVID-19 in rural areas, NRHA worked with Capitol Hill to create the CDC ORH in the FY 2023 appropriations bill. The office enhances implementation of CDC's rural public health portfolio, coordinates efforts across CDC programs, and has developed a strategic plan for rural public health that maps the way forward. NRHA urges Congress to increase funding to **\$10 million for implementation of core rural public health functions.**
- **Sustain funding for the Rural Maternal and Obstetric Management Strategies (RMOMS) programs.** Between 2011 and 2021, 267 rural hospitals dropped OB services, representing nearly 25% of America's rural OB units. NRHA requests Congress provide funding to continue the critical work of maternal healthcare in rural America through **funding for the Rural Maternal and Obstetric Management Strategies program at \$15 million in FY 2025.**
- **Increase rural physician training by supporting the Rural Residency Planning and Development Program.** Support the development of new rural residency programs to address the ongoing workforce shortages faced by rural communities. Since 2019, this program has created 46 new accredited rural residency programs or rural track programs in family medicine, internal medicine, psychiatry, and general surgery and received approval for approximately 575 new residency positions in rural areas. NRHA urges Congress to **increase funding to \$14 million** this essential program.
- **Expand rural behavioral health and SUD treatments.** The opioid and mental health crisis has hit rural communities hard. Barriers to treatment and prevention services limit access to care. Rural Communities Opioid Response Program (RCORP) is a multi-year initiative that addresses barriers to treatment for substance use disorder (SUD), including opioid use disorder (OUD). NRHA urges robust funding for the **RCORP programs at \$155 million in appropriations.**

Rural Health Appropriations Requests & Allocations

Discretionary Funding Program	NRHA FY 2025 Request	President's FY25 Budget	HAC FY 2025 Mark Up	SAC FY 2025 Mark Up	FY 2024 Omnibus
